

NEED AN
ERGONOMIC,
HOMWORKING
CHAIR?

WE'VE GOT
YOUR BACK!

 WORKPLACE OFFICE FURNITURE

**ORTHOP
AEDICA**

More of us than ever are working from home, that means we need to make our home space safe and healthy places to work.

TO HELP MAINTAIN
GOOD POSTURE
AND A HEALTHY
BACK & SPINE IT
IS ESSENTIAL TO
ADOPT THE
CORRECT
SEATING
POSITION. SITTING

Orthopaedica assists in reducing back discomfort and enhances well-being to enable the user to work and perform to the best of their ability.

ORTHOPAEDIC A PROVIDES FLEXIBILITY WITH A MULTITUDE OF OPTIONS.

Independent movement enables the seat & backrest angle to be adjusted separately, with the ability to lock in a fixed position – will freefloat if lever is left unlocked.

Fully synchronised mechanism enables the seat & backrest angle to be adjusted, moving together to the required position ensuring the correct ergonomic posture.

4. Headrest

The addition of an adjustable headrest supports the user in reclined positions, relieving stress within the neck muscles.

5. Coccyx Cut Out

A cut out area for the coccyx, discretely covered by the seat fabric. This relieves pressure on this delicate area.

2. Inflatable Lumbar & Thorax

By using the pneumatic pump, the lumbar or thorax can be inflated or deflated as required.

1. Seat Slide

A sliding seat adapts to different thigh lengths, allowing the user to optimise their own comfort and support.

3. AirTech Seat

A push of the button allows air to flow through the two way valve; this enables the seat to move and mold to your natural shape.

ORTHOPAEDIC A 90SERIES
